**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT**

International application No. **PCT/HR 03/00058**

I. Basis of the report

1. With regard to the **elements** of the international application (*Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)*):

Description, Pages

1-14 as originally filed

Claims, Numbers

1-16 as originally filed

2. With regard to the **language**, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language: english , which is:

- ☐ the language of a translation furnished for the purposes of the international search (under Rule 23.1(b)).
☒ the language of publication of the international application (under Rule 48.3(b)).
☐ the language of a translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).

3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
☐ filed together with the international application in computer readable form.
☐ furnished subsequently to this Authority in written form.
☐ furnished subsequently to this Authority in computer readable form.
☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. The amendments have resulted in the cancellation of:

- ☐ the description, pages:
☐ the claims, Nos.:
☐ the drawings, sheets:

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed (Rule 70.2(c)).

(Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.)

Re Item I

The examination is being carried out on the **following application documents**:

Description, pages:

1-14 as originally filed

Claims, No.:

1-16 as originally filed

Re Item V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Reference is made to the following document:

D1: WO-A-0066603

Novelty :

The subject-matter of the present application concerns sulfonylphenylcarbamoyl derivatives of azithromycin and a process for the preparation thereof.

Since none of the available prior art discloses these compounds, the subject-matter of claims 1-16 is considered new.

Inventive Step :

D1, which is considered to represent the closest prior art, discloses arylcarbamoyl derivatives from which the subject-matter of the present application differs in the presence of para-sulfonyl derivatives fixed on the phenyl group.

The problem to be solved can be considered as providing alternative antibacterial compounds.

Since none of the available prior art documents suggest the presence of p-sulfonyl derivatives on the aromatic group and furthermore, since these compounds show biological activities, the subject-matter of the present application is considered inventive.
